

Gordon, This is for your information. Dick White seems like a very nice guy. He wrote "The Founding Father" about Joe Kennedy and has been on the staff of Fortune and I believe TIME. I would like a little more interest in the SEP. I showed Dick some documents he had seen but didn't understand. I told him to look again and he didn't see it. Then I showed him. I hope my openness, willingness to help and facility at seeing things others do not may lead to something. I do not expect it to, but one tries. My wife has retyped about a third for offset if we do that. I've told Friedman to give Dell until November 12 for a final decision and offer.

Dear Mike,

We had a pleasant evening with Joan and Dick White Friday, following a long phone conversation Thursday night. I'm sorry his family responsibilities and my participation in a radio panel show by phone cut it short. They are nice people whose company we enjoyed and I am grateful for the break and relaxation it afforded us.

Because you have read WHITEHEAD II and I trust you, I tell you three new things. I have unassailable documentary proof that the entire reconstruction of the crime was by intent and design false. You saw my reasoning. I now have the documents. Zapruder told the FBI his camera was exposing 24 fps. I have absolutely unshakable proof that the FBI and J. Edgar Hoover knew the man in the doorway and in the Altgens picture could not have been Lee Harvey Oswald. Because he agreed not to use it and because I believe his understanding of the reality of the situation is essential to his opportunity of doing whatever it is you want of him, I have showed these to him.

Further, I have by accident discovered a man who may be an important missing link (he'll probably deny it anyway). He may, intentionally or otherwise, lead to others and elsewhere. I identified him to Dick and offered, when I seek him out, to have Dick accompany me. He declined. I know where this man is and works and Dick may develop other information about him to our mutual benefit. If you desire, I'll send you the addition to the chapter "The Hoover Diversion, of The False False Oswald", which it now concludes.

As you know, I'll help Dick in any way I can. I think I have. While after 17 months it no longer seems reasonable to expect the SEP to serialize my work, I'll need help in accomplishing what I am determined to do. I may soon need more help than will be available.

There are two ways in which I think I can help you both that it might seem presumptuous for me to suggest, so I will not. However, if I knew your immediate objective it is possible I could be of more service. If I knew the limit of your ultimate interest, certain longshots may be within possibility. I am not prying. I am offering. When I see Dick again I'll offer to discuss these things with him.

It is within the realm of possibility that if I can spend three or four more days in Washington this coming week I may learn more. I project the interview mentioned above after this coming week.

Sincerely,
